

Adobe Illustrator 2

Skill Level: Advanced

This class is a perfect follow up to our Illustrator 1 class! In this class, we will start with an overview of the basics of the Adobe Illustrator CS program, and move quickly onto setting up and designing your business cards, letterhead, envelopes, brochure and newsletter files. In addition to designing these business marketing materials in class, you will also learn how to set up the files for print, and take your print ready designs with you on a cd!

You should have a working knowledge of the Adobe Illustrator program, or have taken our Illustrator 1 class. You must have a logo in digital format on cd (preferably a vector art format) to bring to class so that it can be incorporated into the marketing materials that we will be designing in class.

Some of the things you will learn in this class:

- The Illustrator Work Area Overview
- Creating New Documents
- Illustrator Templates
- Tools and Palettes
- Text and Text Effects
- Color, Strokes, and Fills
- Locking Objects
- Organizing your work with Layers
- Grouping, Arranging, Aligning and Distributing Objects
- Business Card Design and Setup
- Letterhead Design and Setup
- Envelope Design and Setup
- Brochure Design and Setup
- Newsletter Design and Setup
- Creating Templates
- And more!

Whether you need classroom style training for your entire company, a group presentation or a one-on-one class, we have a class for you!
