

Adobe Illustrator 1

Skill Level: Intermediate

Learn the basics of the Adobe Illustrator program. During class you will learn image and design basics, toolbars, palettes, art work area and more! During class we will teach you how to design art including a business or personal logo. As you create your logo, you will also learn how using templates can save you time while still allowing you to create unique design work. At the end of class, you can take your logo in digital format with you!

This class is an Intermediate level class, meaning you should have a basic understanding of the computer. No design experience is necessary.

Some of the things you will learn in this class:

- Learning the Illustrator Work Area
- Vector Art vs Raster Images
- Document Color Modes
- Creating New Documents
- Illustrator Templates
- Tools
- Palettes
- Text and Text Effects
- Working with Color
- Strokes and Fills
- Working with Layers, Shapes, Simple Effects & Compound Shapes
- Illustrator Symbols
- Grouping and Arranging Objects
- Aligning and Distributing Objects
- Rotating Objects
- Illustrator Shortcuts
- And more!

Whether you need classroom style training for your entire company, a group presentation or a one-on-one class, we have a class for you!
