

Adobe InDesign

Skill Level: Intermediate

Learn the basics of the Adobe InDesign program. During class you will learn design and layout basics, toolbars, palettes, art work area and more! We will teach you how to design a multiple page document. As you create your document, you will learn how using master pages can save you time while still allowing you to create unique design work. We will also cover how Photoshop and Illustrator integrate with InDesign and the advantages of using them together.

This class is an Intermediate level class, meaning you should have a basic understanding of the computer. No design experience is necessary.

Some of the things you will learn in this class:

- Learning the InDesign Work Area
- Vector Art vs Raster Images
- Color Modes
- Creating New Documents
- Master Pages
- Tools
- Palettes
- Text and Text Effects
- Formatting, Wrapping & Threading Text
- Working with Color
- Strokes and Fills
- Importing Images & Graphics
- Drawing Basic Shapes
- Simple Effects
- Working with Objects
- And more!

Whether you need classroom style training for your entire company, a group presentation or a one-on-one class, we have a class for you!
