

# Internet Basics

Skill Level: Beginner

This class is designed for people looking to get online, beginners or novice users who want to learn about the Internet. It is a hands-on class that takes you through the basic skills needed to effectively get online, use email & search the World Wide Web.

We begin with a basic understanding of how the Internet works, cover all of the terminology, have a review of some of the popular sites (including Google and Facebook) and finish with practice in the use of some of the basics including email & browsers. If you, or someone you know, wants to use the Internet for the first time, or just to get better at what they are already doing, this is the class for you!

## **Some of the things you will learn in this class:**

- Internet terminology
- How to get online (Internet Service Providers)
- Email Basics
- Webbased Email programs such as Gmail or Yahoo
- Browsers
- Search Engines
- Social Networking Sites - including Facebook
- MapQuest
- and more!

Whether you need classroom style training for your entire company, a group presentation or a one-on-one class, we have a class for you!
