

Digital Photo Basics

Skill Level: Basic

Have a digital camera but struggle with using it? Need to know how to move digital pictures to your computer or send them in an email? Do you want to preserve old photos by scanning them into your computer? Learn everything you need to know in our Digital Photo Basics class!

Learn how to quickly move pictures from your digital camera to folders you create and maintain on your system. We will walk through how to edit/adjust digital pictures (whether scanned or taken w/ a digital camera). You will also learn how to save the pictures correctly for print or the web, and how to send them via email.

Some of the things you will learn in this class:

- Move pictures off of a Digital Camera or other media (Flash Drive) correctly
- Organize digital pictures/files
- How to quickly edit pictures including, cropping, resizing, brightness, contrast and more
- How to save for Print, Web or Email
- How to send pictures as an attachment
- How to backup pictures to a CD, Flash Drive or DVD
- And more!

Whether you need classroom style training for your entire company, a group presentation or a one-on-one class, we have a class for you!
